

# NMD

## COLOUR

## CODE

 Nexans adds **COLOUR** to the NMD90 product line.

Why Colour?

-  Easy gauge size identification
-  Easy application identification

### GAUGE SIZE:

**#14 AWG NMD Canadex is WHITE**

**PLUS we stock 2C#14 NMD Canadex BLUE**

**#12 AWG NMD Canadex is YELLOW**

**#10 AWG NMD Canadex is ORANGE**

**#8 and larger NMD Canadex is WHITE**

**NEW**

### APPLICATION:

**NMD Heatex: all gauge sizes remain RED - for 240 volt applications.**

**BLUE 2C14 NMD for bedroom receptacles identifies circuits tied into the new code-required AFCI circuit breakers at the panel.**

**YELLOW #12 NMD identifies 20 amp circuits. The 2002 Canadian Electrical Code allows 20 amp T-Slot (CSA 5-20RA) receptacles as an alternative to split wired 15 amp kitchen receptacles. GFCI protected T-slot 20 amp receptacles are available for use within 1 meter of kitchen sinks, where GFCI protection may be required by provincial electrical codes.**
